Q2: Can I use any grinding wheel with this grinder?

A2: No. You must use a grinding wheel that's compatible with the grinder's specifications (including size and RPM). Using an inappropriate wheel can cause serious injury or damage to the grinder. If you can't find original documentation, err on the side of caution and consult with a professional before using any wheel.

Q3: How often should I replace the grinding wheel?

A3: Replace the grinding wheel whenever it shows significant wear, becomes unbalanced, or develops cracks. Regular inspection is key.

Q4: What type of lubrication does this grinder require?
